in annkpx
📍 Moscow

Full-stack engineer with 15+ years of hands-on development experience, including 8 years at Yandex building and scaling critical cloud infrastructure. Proven track record of delivering production-grade MVPs in <1 month and scaling systems to 200k+ RPS. Strong ownership mindset. Open to co-founding or senior IC roles where I can own product+tech from 0→1→scale.

CORE COMPETENCIES

Backend Engineering • Architecture • High-Load Systems • Database Design & Optimization (PostgreSQL, MySQL, Greenplum) • WEB • Python/Django • Technical Leadership • MVP-to-Product Scaling

WORK EXPERIENCE IN HIRING

Technical Product Manager
Yandex | 2023 - 2025

Product owner of the Managed PostgreSQL / MySQL service in Yandex Cloud (products contribute ~$20M ARR). Led product strategy for these services while remaining deeply hands-on in architecture, DB scaling, and incident response. Owned technical roadmap and co-designed with engineering teams.

Senior Software Developer
Yandex | 2017 - 2023

Yandex.Cloud, Managed Databases

- Critical high-load service
- Databases, mainly PostgreSQL, MySQL and Greenplum
- Owned and scaled the metadata layer (PostgreSQL) for Yandex Object Storage (S3-compatible service), handling ~200k sustained RPS.
- Tech stack: Python, C, SQL

Python Developer
Rambler&Co | 2016 - 2017

Advertising technologies, machine learning department (AdTech, DMP)

- ETL
- Big data (Hadoop, ClickHouse, ElasticSearch)
- Web interface on Flask

Python Developer
Ivideon | 2011 - 2012

Solving internal infrastructure tasks.

C/C++ Developer
Rock flow dynamics | 2010 - 2011

Development in the field of geology.

PROJECTS

Sole developer
skillnetwork.ai

AI is an assistant for marketing and content creation. I built and launched the MVP in one month; the product quickly started generating tens of thousands of USD/month in revenue.

Founder & sole developer
sewterra.ru

A platform for connecting clothing brands and tailoring workshops. There are currently 1000+ registered users on the platform. Web + Android + iOS.

Founder & sole developer
patternly.ru

Online English grammar simulator for Russian speakers. Web + Android app.

Tech stack (all projects): Python, Django, PostgreSQL, HTML/CSS/JS.
